

Business Calculations

Acquiring a high level of mathematics skill to solve business problems is a challenge for all prospective business employees. This event provides recognition for FBLA members who have an understanding of mathematical functions in business applications.

Competencies

The written objective test may consist of calculations performed in the business environment. Areas of emphasis in the test may include mark-ups and discounts, investments, bank records, insurance, interest rates, payroll, ratios and proportions, depreciation, consumer credit, and taxes.

Business Education Curriculum Standards:

Computation

Eligibility

Each chapter may enter members who are on record in the FBLA-PBL Online Membership System as having paid dues by the officially published deadline for the current school year.

No member may have competed in this event at a previous National Leadership Conference.

Procedure

A one-hour online objective test will be administered based on the listed competencies.

A calculator function is included in the online testing software. No additional calculator or other device may be used during testing.
