

Introduction to Technology Concepts

The processing of data is important to the successful operation of business. This event provides recognition for FBLA members who understand the basic principles involved in computer technology.

Competencies

The objective test may include questions on basic computer principles, terminology, computer application concepts, programming concepts and procedures, and computer equipment.

Business Education Curriculum Standards:

Information Technology.

Eligibility

Each chapter may enter members who are on record in the FBLA-PBL Online Membership System as having paid dues by the officially published deadline for the current school year.

NOTE: Only members enrolled in Middle Level and grades **9 through 10** as of the current school year are eligible.

No member may have competed in this event at a previous National Leadership Conference.

Procedure

A one-hour online objective test will be administered based on the listed competencies.

A calculator function is included in the online testing software. No additional calculator or other device may be used during testing.
