

## **Networking Concepts**

*Acquiring a high level of familiarization and proficiency in working on and with networks is essential in today's connected workplace. This event provides recognition for FBLA members who have an understanding of data communications and network administration.*

### **Competencies**

The written objective test will consist of questions on general network terminology, equipment for Internet access, problem solving/troubleshooting, network operating system terminology, OSI model and functionality, and network topologies and connectivity.

### **Business Education Curriculum Standards:**

Information Technology, Management

### **Eligibility**

In order to compete in the event, students must either qualify at a Regional Skills Conference, be declared a wild card, or use their bonus event. Each chapter may enter participants who are members of an active local chapter and are on record in the FBLA-PBL Online Membership System as having paid dues by the officially published deadline for the current school year.

### **Procedure**

A one-hour online objective test will be administered based on the listed competencies.

A calculator function is included in the online testing software. No additional calculator or other device may be used during testing.
