

Administrator of the Year Award

Without the support of administrators in our schools, districts, and state, it would be impossible for an organization like FBLA to exist, let alone impact the hundreds and thousands of students we touch year in and year out. Administrators provide funding, permission, logistics, and support—most often behind the scenes and without any fanfare or acknowledgement. This recognition provides local chapters with the opportunity to identify and quantify the support they receive from special administrators and to say thank you.
